Summary

Front-End Developer with 3+ years of experience building responsive, accessible web applications using **React, TypeScript, Razor, and modern CSS frameworks**. Skilled in **API integration, performance optimization, and scalable UI design**. Proven track record of delivering intuitive user experiences, improving engagement, and mentoring developers to elevate team productivity.

Skills

- **Frontend:** HTML, CSS, JavaScript, React, Vue.js, TypeScript, SASS, Tailwind, Bootstrap, Material-UI
- **Accessibility & Performance:** WCAG, ARIA, Responsive Design, Cross-Browser Compatibility
- **Backend:** C#, ASP.NET Core, REST APIs, Razor
- **Tools & Design:** Git, GitHub, Vite, Bitbucket, WordPress, Figma, Photoshop, Illustrator

Experience

Radancy - UI Frontend Developer | Mar 2021 – Present

Build and optimize career sites for global clients that drive talent acquisition and strengthen employer branding, ensuring accessible, responsive designs within an ASP.NET environment.

- Lead a cross-functional team to standardize workflows, modernize CMS experiences, and upgrade tech stack, resulting in faster builds and reduced rework.
- Rework and build reusable C# components that adhered to DRY principles, improving code maintainability, reducing bugs, and accelerating site deployment timelines for faster client launches.
- Co-engineered a custom Flexbox/CSS Grid framework to improve layout consistency, break down designs more efficiently, and reduce repetitive coding, saving ~15 development hours per project.

The Rise Foundation - Digital Specialist | Jul 2020 - Jan 2021

Oversaw the organization's digital presence to grow community outreach and engagement, designing and delivering assets across web, social, and email channels that elevated brand visibility and strengthened constituent connections.

- Revamped the Wix site's look and feel while implementing CMS features to simplify event promotion, enhance mobile responsiveness, and strengthen SEO performance.
- Increased workshop participation by 8% through tailored Mailchimp campaigns and integrated site forms.
- Implemented custom JavaScript and CSS microinteractions to create a more intuitive user experience, while applying null-safe coding patterns and accessibility standards to ensure stable and inclusive design.

Neon One - Junior Web Designer | Oct 2018 - Jul 2020

Redesigned and branded nonprofit client websites to improve market visibility, optimize information architecture, and enhance constituent engagement through modern UI/UX practices.

- Integrated proprietary CRM with WordPress to sync organizational data and deliver dynamic, user-friendly content.
- Designed reusable templates that cut project timelines by 3 business days and supported revenue growth through restructured web packages.
- Developed custom CSS modifications to extend the functionality of third-party scripts and proprietary platforms, addressing client-reported bugs and ensuring polished, accessible, and brand-aligned interfaces.

Education

Syracuse University – BFA, Computer Art & Animation | Minor: Information Management & Tech
